RARE DISEASE DIGITAL EDUCATION:

A Pathway to Improved Quality of Care and a Shorter Time to Diagnosis

WHY DOES RARE DISEASE EDUCATION MATTER?

1 in

Americans have a **rare disease**More than half are children

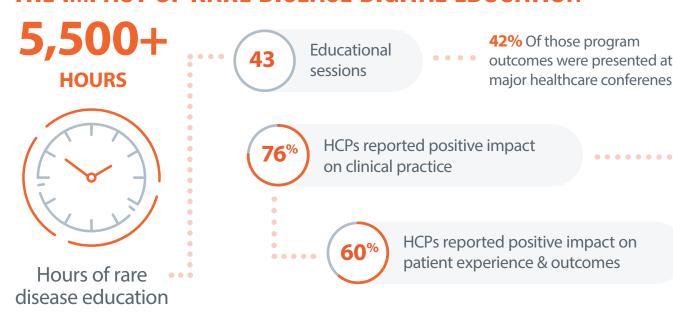

~7,000

Rare diseases identified

7-8 Years to diagnosis90% Without FDA-approved treatment

THE IMPACT OF RARE DISEASE DIGITAL EDUCATION

"Accessible, online rare disease education aims to shorten the time to diagnosis and improve quality of care. Alongside NORD's network of 330 disease-specific member organizations, we will continue to deliver actionable rare disease education to HCPs and patients to improve patient outcomes and the lives of rare families."
