

Powered by Partnerships

Relying on each other's collective strengths to make a difference in healthcare

As the leading provider of sustainable, digital education and engagement solutions we are able to design, develop, and deploy credible health education for clinicians, patients, and caregivers through hundreds of collaborations each year.

Our Turnkey Partnership Model Drives Real Value

- ✓ Make a meaningful impact on the lives of patients & caregivers
- ✓ Access health education outcomes data that will give you insight on how to better serve your community
- ✓ Lift your mission and extend your reach with our extensive partnership network
- ✓ Secure recurring revenue using a digital education and engagement platform

Committed to driving change with our partner network

Patient stories shared in our programs in the last 3 years

"I was diagnosed with MBC five years after my mom died of MBC. I never knew a Black woman could get breast cancer, so I told myself I needed to get educated and my advocacy started. I told my team don't treat me like I'm dying – treat me like your early-stage patients."

-Shelia, patient participant from 'A Woman's Role in her Breast Cancer Care'
